

Technical Information

60-05

Speeding Reducer

Drying accelerator for baslac clear coats (VOC-compliant), and 2K Primer filler.

- Reduction of drying times
- Improves surface drying and curing performance.

No add of 60-05 Speeding Reducer in 2K Primerfiller / Filler at temperatures > 25°C possible, due to too short potlife.

Please note: For automotive refinish, repair instructions of vehicle manufacturers, in particular regarding installed sensor technology, must always be observed in addition to the processing instructions given within this document.

Safety advice:

**The products are suitable for professional use only.
It cannot be ruled out that this product contains particles < 0.1 µm.**
